## Profile Summary

Data Science graduate with 1+ year of experience in Excel extraction, reporting, SQL data validation and daily client collaboration. Known for quick learning, clear communication and a strong drive to solve real analytical problems. Skilled at turning raw data into clean insights and supporting cross-team defect analysis. Actively building a full-time data analytics career with consistency and enthusiasm.

## Skills

- **Programming & Querying:** Python, SQL
- **Visualization & Reporting:** Tableau, Power BI, Advanced Excel
- **Databases:** MySQL, Oracle SQL Developer, NoSQL
- **Data Workflows:** Data extraction, data validation, data cleaning
- **Additional Tools:** SharePoint, PowerPoint

## Experience

### Analyst | Cognizant Technology Solutions

Oct 2024 – Present | Hyderabad, India

- Extract and clean data using Excel and SQL to support daily operational analysis and business decisions.
- Perform SQL-based data validation in Oracle SQL Developer, ensuring accuracy across large datasets.
- Maintain and update status trackers, documentation and structured project reports.
- Collaborate with US clients daily to clarify requirements, present updates and ensure smooth delivery.
- Analyse defects and identify patterns that support process improvement across teams.
- Coordinate with cross-functional teams using SharePoint, internal tools and regular internal meetings.

## Projects

### Flipkart Review Sentiment Analysis using python | Python, SQL, Excel, NLP | [Credentials](#)

- Analysed Flipkart reviews using NLP, Python Matplotlib, and Excel. Extracted customer opinions, resulting in 923 positive, 96 negative, and 1283 neutral scores. This analysis revealed high customer satisfaction and provided actionable insights for product improvement and customer engagement strategies.

### Rides Data Analysis | Tableau, Excel, MySQL | [Credentials](#)

- Enhanced the supply product team's understanding of user interaction and driver engagement using Tableau, SQL, Excel, and PowerPoint. Identified key reasons for ride cancellations and driver behaviour patterns. Provided actionable insights to improve passenger satisfaction and reduce cancellations.

## Education
